

Introduction

Operating a charter school is engaging for administrators and is fulfilling the dreams of its Founders. It is also very rewarding on many levels, particularly as the successes of students are observed. It is also serious business. Charter schools are not typical start-ups. Before a charter is even granted by the state, its Founders need to have a complete business plan detailing curriculum, staffing, a multi-year financial forecast, policies and procedures of all kinds, special education everything, plans for this and plans for that. These plans include financial policies, procedures, forms, documents, etc. (internal controls). A brand new Founding team may know little about them, at least insofar as the real-life demands of the state and federal bureaucracies are concerned. This “finance policies” document, coupled with procedures, forms and good practices are the foundation of effective internal controls.

The school shall make these policies available in the school’s business office (main business office) and on the school’s website. This delegated authority requires checks and balances (internal controls) to ensure that the Board properly accounts for and spends public funds for which it is entrusted within the law, and without malfeasance.

Internal Controls

Internal Controls are an integral part of a charter school (school) “control environment” to ensure the school’s assets are safeguarded and to minimize risk. Internal controls consist of well-crafted policies, procedures, guides (guidelines) and forms indicating *how we’re supposed to do it*. They also include implementation and practices (modeling) by leadership and school staff *how we actually do it*. *How we’re supposed to do it* and *how we actually do it* should be the same in almost all circumstances. Internal controls are developed for the purpose of:

- Protecting against waste of resources through inefficiencies;
- Protecting resources against embezzlement, bribes, theft or other types of fraud;
- Protecting against poor management, carelessness and unintentional errors;
- Securing compliance with both law and rules of the state, policies of the school and the audit requirements of the State of Utah pertaining to “public funds”;
- Protecting against loss or destruction of records;
- Ensuring data reliability and accuracy;
- Evaluating the level of performance of the school’s operations.

Under the direction of the Governing Board, schools are required to establish and maintain adequate accounting records and implement internal control policies & procedures. Internal control consists of six components: control environment, risk assessment, control activities, information and communication, segregation of duties and monitoring. The objectives of internal control relate to financial reporting, operations, and compliance.

The Board and all levels of administration and instructional staff are responsible for preventing and detecting instances of fraud and related misconduct and for establishing and maintaining proper internal controls that provide security and accountability. The Board and administration are also responsible for recognizing risks and exposures inherent to these areas of responsibility and for being aware of indications of fraud or related misconduct. Any employee with reasonable basis for believing fraudulent or related misconduct has occurred should report such incidents to the designated authorities within the school or to

the State Office of Education.

Internal controls provide schools with the foundation to properly safeguard assets, implement policies, provide compliance with state and federal laws and regulations and produce timely and accurate financial information. Board members and directors should review the Charter Solutions' Internal Controls Guide to further understand the need for internal controls and their role in their implementation and oversight.

The policies outlined herein will be reviewed at least annually. Employees involved in the processes and procedures associated with these policies will be trained at least annually in their duties.

Governing Board Authority

The Board of Trustees, Governing Board, etc. (Board) is responsible for the operation of school in accordance with state and federal laws. The Board is also responsible for operating the school in accordance with the representations made in its charter. The Director and business office staff independently report all financial transactions directly to the Board periodically in a public board meeting. Both the Director and the employee(s) within the business office may report to the Board independently if requested, or if they deem appropriate on certain matters, or in any case where mismanagement or fraud is suspected.

This includes recordkeeping in both the modified and full-accrual bases of accounting. Audited financial statements certified by an independent auditor will be prepared annually using the accrual basis of accounting. Further, the school specifically requires that:

The backup file(s) must be stored separately in a fire safe area and properly secured. All other financial data, petty cash box(es), check stock, etc. will be secured from unauthorized access.

It is understood that the school shall by law assume no expense as a result of the leasing of school properties, facilities, including grounds, furnishings and equipment. It is further understood that restraint must be exercised in leasing facilities for purposes other than school functions, to the extent that such leasing shall not interfere with the school curriculum, program and standards. The Board may refuse the use of school facilities by outside entities if it determines the use is inadvisable.

The Board authorizes the Administration to establish rules, guidelines, procedures and fees for the rental and use of school facilities for other than school purposes. The Board will review and approve the

procedures as needed. The School Director and Business Manager shall administer the rules and guidelines and see that all entities follow established procedures.

The Board contracts annually with a qualified independent certified public accounting firm to conduct a fiscal audit of the school's financial records and statements. The audit is performed in accordance with auditing standards generally accepted in the United States of America, Government Auditing Standards issued by the Comptroller General of the United States, 2003 Revision (GAS) and, if applicable, the U.S Office of Management and Budget's Circular A-87 and A-122. The selected firm must be familiar with these standards and related state regulations in order to properly conduct the fiscal audit.

Audit Committee

The Board shall establish an audit committee per Administrative Rule R277-113, comprised exclusively of Board members, which shall:

- Seek to understand its role and duties as outlined in the GFOA Audit Committees guide;
- Review, audit and initial original bank statements and account reconciliations from the accounting system for each period reconciled;
- Review, in a public meeting, audit reports provided to the Committee directly by outside firms;
- Review the school's risk assessment processes and procedures to ensure adequate internal controls are maintained;

This insurance coverage is not included in the school's other insurance policies and must be purchased separately. The school requires proof of adequate insurance coverage from all prospective sub-contractors, as deemed applicable by the Board.

Banking & Financial Management Policies

General

Accounting policies and financial reporting adopted by the school should be consistent with a special purpose governmental entity that engages in business-type activities. The Board has oversight of the management of the school inclusive of establishing the governance structure and the financial management policies as set forth in the school's charter

Budgeting

School administration prepares an annual operating budget of revenues and expenses (forecast or budget) for approval. The Board approves a final budget for the operation of the school for the prior twelve months. Both of these budgets are approved no later than June 30th of each school year. Budgets are reviewed and modified as necessary. These forward-looking budgets and projections are reviewed and approved by the Board at an open and public meeting.

- The fiscal year (budget year) of the school is July 1st through June 30th. The appropriate accounting period is used for all adjusting entries and accruals;
- Financial statements displaying budget vs. actual results are prepared by the business office and reviewed by the director and Treasurer and are presented to the Board at each board meeting (with limited exceptions);
- Administration shall follow the Board approved budget with exceptions approved by the Board.

Bank Accounts

The Board may authorize bank accounts for general or specific purposes. School assets shall be kept at any bank or financial institution that is approved by the Utah Money Management Council. All bank accounts shall be reconciled as often as statements are available, typically monthly.

Investments

The school shall follow state law and rule as outlined by statute, Administrative Rule and the rules of the Utah Money Management Council in investing school cash assets.

Petty Cash

Petty cash funds may be established for incidental, non-recurring cash advances, local expense reimbursement, and small-dollar vendor purchases, provided proper documentation is furnished with each request. No fund shall exceed \$500 or individual payment shall be greater than \$100. Petty cash funds are recorded on the balance sheet as a cash account. The petty cash account is balanced periodically by the business office.

Cash Handling and Cash Receipts

Wherever possible, duties such as collecting funds, maintaining documentation, preparing deposits and reconciling records should be segregated among different individuals. When segregation of duties is not possible due to the small size and limited staffing of the school, compensating controls such as management supervision

and review of cash receipting records by independent parties should be implemented. School staff shall follow established procedures (internal controls) for the handling of cash receipts as outlined in the *Cash Handling & Receipts Procedures*. The school will comply with all applicable state and federal laws.

All checks received must be made payable directly to the school. All funds shall be kept in a central, secure location until they are deposited in a school-approved fiduciary institution. Funds should be deposited daily or within three days after receipt, in compliance with Utah Code 51-4-2(2)(a). Unauthorized school employees should never hold funds in any unapproved location for any reason. Periodic and unscheduled audits or reviews should be performed for all cash activity. All payments of school fees shall correspond with the approved fee schedule, as required by State Board Administrative Rule 277-407.

Fundraising

Fundraising is generally permitted within the school to allow the school to raise additional funds to supplement school-sponsored academic and co-curricular programs. Fundraising at the school level is only authorized and administered by the Director. The Board shall annually review the fundraising activities of the school and of all activities that support or subsidize the school. The Board shall ensure that revenues raised during fundraising activities or through activities that support the school (local funds) are raised within established cash handling policies. - "School-sponsored" means activities, fundraising events, clubs, camps, clinics, programs, sports, etc., or events, or activities that are authorized by the school, school board, administration, or board committees, including the authorized parent organization or authorized curricular school clubs, activities, sports, classes or programs that also satisfy one or more of the following criteria. The activity:
 - Is managed or supervised by school administration, staff, or authorized volunteers;
 - Uses the school's facilities, equipment, or other school resources;

Donations may be accepted, upon approval by the Director, providing the item(s) to be donated (cash, goods, services) are legal to possess by a public school, safe, unencumbered, usable by the school and are generally not restricted in their use, or are not restricted for use by an individual employee. Donations for the purpose of compensating specific employees or positions may not be accepted (donors can donate for other purposes instead). Donations received by the school become public funds and may not be returned or expended except within the law as applicable to the appropriate use of public funds. All policies and procedures of the school are applicable to donations, including Cash Receipt and Disbursement policies and procedures, and all other internal controls.

Gifts to the school must be general in nature and may not be restricted such that they cannot be used for various purposes, except when those purposes are to a specific program, such as the PE program, science department or art program. Donations or gifts intended to benefit a specific student, teacher or classroom may not be accepted and could be considered a bribe.

The value of a gift or donation to the school may not be assessed or assigned by the school. The value and tax deductibility of a donation or gift made by an individual or company is to be determined by the donor and their accountant, not the school. No dollar value may be assigned to a donation verbally or in writing. If a product or service is given in return for a donation or gift that is clearly defined, such as a \$250 advertising slot in the yearbook, that value can be disclosed by providing the school's advertising rates to the donor for them to assign a value.

Vending Machines

Vending machines are to be administered by the Director with the assistance of the business office and other school administrators. Two persons shall be present when removing cash from vending machines and delivering it to the school office for recording using the Cash Handling & Receipts Procedures. Use Of School Credit & Debit Cards

Debit cards are only authorized with Board approval. Charter School credit cards and purchase cards shall only be issued with the formal approval of the Board and with proper justification. The cost/benefit to the school should be fully reviewed to ensure that no other method is appropriate. If credit cards are issued they should be assigned to specific school employees and should be used only for school-related expenditures.

All charges must be supported by transaction-level invoices (point-of-sale receipts) or travel reports to be eligible for payment by Charter School. Monthly credit card statements are reconciled by cardholders to point-of-sale receipts and travel reports. They are reviewed and approved monthly by appropriate supervisors.

Accrued Liabilities

Salaries, wages earned, and payroll taxes, together with professional fees, rent, and insurance costs incurred, but unpaid, are reflected as a liability when entitlement to payment occurs. Employee Travel Out of State

Employees who travel out of state travel with itineraries booked through school administration, except as otherwise approved. Under certain circumstances, employees may be required to use a personal credit card for hotel and/or vehicle rental. Employees may not use public funds to pay for (or submit for reimbursement) personal expenses while traveling for the school.

Contracted Services Policies

Outside Service Providers

The utilization of outside service providers (i.e. independent contractors) and contracted personnel are sufficiently evidenced by:

- Service Agreements outlining the terms of the agreement (e.g., responsibilities work requirements, rate of compensation, and nature and amount of other expenses, if any) with the individuals or organizations providing services and details of actual services performed;
- Required IRS W-9 form, proof of authorization or licensure and liability insurance certification (among other things) are required before service is rendered or payment is made;
- Invoices or billings submitted by consultants, including sufficient detail as to the time expended and nature of the actual services performed;
- The use of a management contract for educational administrative services will clearly identify the contractor's performance requirements, including students' academic achievement (if applicable), contractor's compensation and define the school's rights to educational curricula and intellectual property developed.

The use of independent contractors is closely monitored so as not to vary from the rules of the Fair Labor Standards Act and Utah law. The contractor will:

- Be free from the school's control and direction in scheduling and performing the service, both under a contract and in fact;
- Provide a service that is outside the school's usual course of business or provide a service on a temporary basis;
- Not receive any fringe benefits as such, although their fee may include provision for fringe benefits;
- Use his or her own letterhead, supplies and materials when billing for services.
